WHAT IS NEXORLINK?

NexorLink deploys **Sofia** — a bilingual AI voice assistant that answers every call, books appointments, captures leads, and follows up on no-shows. 24/7. In English and Spanish. For a fraction of the cost of a full-time receptionist.

THE 3 THINGS SOFIA DOES

- 1. Answers Every Call** — No voicemail. No hold music. Sofia picks up instantly, identifies the caller's needs, and handles it — in English or Spanish automatically.
- 2. Books Appointments** — Sofia schedules directly into your existing calendar system. Patients get confirmation texts. No-shows get automatic reminder calls.
- 3. Follows Up Automatically** — Missed calls, no-shows, and leads get follow-up calls within minutes. Nothing falls through the cracks.
